Many commentators have noticed the recent ‘return of the soul’ in religious, psychological and social-scientific discourse. In our day together some of these commentators will explore this phenomenon with reference to psychology, spirituality and art.

The day will include a specially commissioned video piece, ‘About Soul’, by Tim Wainwright, and be followed with the launch of ‘The Pursuit of the Soul: Psychoanalysis, Soul-making and the Christian Tradition’ (T & T Clark, 2016) by Prof Peter Tyler.

This event costs £30 including a buffet lunch.
